sakthi constructions

The founder and promoter of Sakthi Constructions, the late Mr. V. R. Nachimuthu, had given concrete shape to his vision by building a world-class construction company that rivals the best in the industry. More than five decades ago, in the year 1962, Mr. V. R. Nachimuthu took his first but momentous step in the construction industry by establishing a small construction company in his own name M/s V. R. Nachimuthu Constructions. Starting off modestly with constructing a part of Aliyar Dam in Pollachi, Mr. V. R. Nachimuthu's philosophy rested on hard work, dedication and sincerity, giving him a sound understanding of the trade, which enabled him to successfully complete several government and private assignments. Not one to rest on his laurels, and spurred by his passion to succeed combined with diligence and innovation, Mr. V. R. Nachimuthu carried forward his trail blazing efforts by launching Sakthi Constructions in the year 1983 to focus exclusively on the promotion of premium apartment complexes. In addition to him being a celebrated entrepreneur, Mr. V. R. Nachimuthu was a well known humanitarian who was actively involved in a number of initiatives for the betterment of the underprivileged and the society at large.

Sakthi Construcions is currently being led by his son, Mr. V. N. Subramanian. A civil engineer with over 30 years of experience in the construction industry, he inherits the qualities of ethics, hard work, dedication, sincerity and kindness from his father.

Today, Sakthi Constructions is recognized as a leading and highly reputed residential promoter in the industry. Sakthi Constructions' remarkable portfolio extends to cover over 22 lakh sq. ft. of completed projects and over 3.25 lakh sq. ft. of on-going projects. Professionalism, accountability, transparency, superior quality standards and an undying thirst for excellence form the foundation of the company. Sakthi Constructions prides itself on delivering all its projects on time and on budget at the most competitive prices. This has helped the company in gaining the trust and confidence of an ever growing list of satisfied home buyers who have benefitted from the company's personalized service, extensive domain expertise and flawless performance. Value maximization is a core Sakthi competency and the company excels at offering optimal value for money without sacrificing the quality of the final product. Another distinctive feature of Sakthi is that it has established its own exclusive maintenance firm to proficiently manage and maintain all of its projects. Led by an outstanding management team and drawing upon the collective expertise of its talented team of architects, designers, construction specialists, supervisors and suppliers, Sakthi has and will always excel at creating contemporary residential masterpieces that will bring together the best in beauty, design, comfort, amenities and location.
